ROCA INTRODUCES NORWAY

Miami, Florida—Roca announces the launch of Norway an elegant collection that mirror the look of real wood. The collection presents a three-dimensional finish that is durable, frost resistant, environmentally friendly and requires little to no maintenance.

With respect to ecology, the landscape, sustainable architecture and the health of our planet, we call on Norway. The beauty of wood and superior qualities of ceramic come to life in *Norway*.

Norway is a through-body porcelain and available in the colors of Abeto, Arce, Roble, Sapeli, Wenge and Sebrano. It is available in sizes 13x26, 6 ½ x26 and 4x26, with rectified edges allowing for a cleaner installation and more streamlined results.

You will also find a variety of multicolor decorative accents with a modern flair.

Norway is ideal for commercial and residential installations, as well as recommended for both indoor and outdoor applications.

For more information on these or other products in the Roca line, contact us at info@laufen.com or online at www.rocatilegroup.com.
